Result-driven Data Analyst with 3.5 years of experience in data analytics. Proven ability to transform complex datasets into actionable insights through advanced analytics and visualization. Skilled in collaborating with cross-functional stakeholders to drive data-driven decision-making and optimize business performance.

TECHNICAL SKILLS

- **Languages & Databases:** Python, SQL, DAX, Power Query, PostgreSQL, M Query, SSMS, SSRS, SharePoint
- **BI & Data Visualization:** Power BI, Power BI Workspace & Apps, Tabular Editor, Wireframing, Advanced Excel
- **Data Transformation & Automation:** Azure Data Factory (ADF), ETL, Data Modeling, Data Transformation, Power Automate
- **Advanced Tech & AI:** Azure AI Foundry, Microsoft Copilot Studio, Statistics, Machine Learning, NLP, RAG, Deep Learning

PROFESSIONAL EXPERIENCE

Preferred Square Analytics | Gurugram, India

Senior Data Analyst (April 2025 – Present)

- Standardized DAX logic, folder structures, scalable data models, Power query & M code Optimization and documentation practices, significantly improving model performance and reducing refresh times.
- Led cross-functional stakeholder alignment meetings to prioritize analytical initiatives and define project requirements, accelerating delivery timelines.
- Spearheaded client engagements by gathering complex business requirements and deploying interactive dashboards, increasing client satisfaction scores by 25% within six months.
- Managed and mentored a team of 3 junior analysts, optimizing team workflows to reduce end-to-end reporting turnaround time by 40%.

Data Analyst (November 2023 – March 2025)

- Developed and deployed 20+ interactive Power BI dashboards for enterprise clients, implementing Row-Level Security (RLS) and Perspective model to ensure data governance, personalized views, and enhanced business decision-making.
- Led data transformation and integration initiatives using Microsoft Dynamics, ADF, SQL, Power Query, DAX, and Advanced Excel, improving data quality and consistency by 30%.
- Developed data pipelines and optimized data models, ensuring accurate data validation and seamless report automation.
- Automated 10+ operational and financial reports via SSRS and Power Automate, eliminating manual reporting efforts by 35%.

AlmaBetter | Bangalore, India

Data Analyst (October 2022 – October 2023)

- Collaborated with stakeholders to identify opportunities to leverage company data, contributing to 20% improvement in business growth initiatives.
- Worked with the learning team to validate and enhance data science curriculum, improving material quality by 30%.
- Analyzed company datasets to support product development and marketing strategies, improving operational efficiency by 15%.
- Evaluated and validated new data sources and data collection techniques, improving decision-making accuracy by 25%.

EDUCATION & CERTIFICATIONS

- **Bachelor of Science** | Patliputra University, Nalanda, India (2018 – 2022)
- **Certifications:** [Full Stack Data Science Program](#), [Power BI](#), [SQL](#), [Python](#), [Neural Networks & Deep Learning](#)

CORE COMPETENCIES & SOFT SKILLS

Problem-Solving, Critical Thinking, Attention to Detail, Cross-Functional Collaboration, Communication, Self-Motivation, Adaptability, Ownership
